EDUCATION

Guru Tegh Bahadur 4th Centenary Engineering college,

B.Tech, Computer Science & Engineering (2022-2026) | CGPA: 8.21CGPA

SKILLS

- **Programming Languages:** C, C++, Java, JavaScript (Proficient), Java (Intermediate), Python
- **Databases:** MongoDB, MySQL, SQL (Intermediate)
- **Frameworks & Tools:** React.js, Node.js, Express.js, Bootstrap, Tailwind CSS, Pandas, NumPy, Camelot
- **AI & Machine Learning:** LangChain, Large Language Models (LLMs) , LLAMA 2 , OpenAI , Gemini
- **Version Control & IDEs:** Git, GitHub, VS Code
- **Coursework:** Data Structures & Algorithms, Object-Oriented Programming, Operating Systems, Computer Networks, Software Development, Microservices, Artificial Intelligence, Cloud Infrastructure (AWS/GCP)
- **Soft Skills:** Problem-Solving, Collaboration, Leadership, Time Management

EXPERIENCE

ViewThru ClothBuddy LLP (Backend Developer and AI Engineer Intern)

February 2025 – April 2025

Delhi, India

- Architecting backend infrastructure for an **AI-driven rapid-delivery platform** using **Node.js, PostgreSQL, and AWS**.
- Developing **ML models for demand prediction & route optimization**, increasing delivery efficiency by **20%**.
- Implementing **real-time tracking & inventory management**, ensuring seamless order fulfillment.
- Integrating **AI-driven recommendations**, boosting user engagement by **25%**.

CodeWithTechries(Backend Developer)

April 2025 – Currently Working

Delhi, India

- Developed and optimized backend systems, achieving a **90% rating** for technical problem-solving.
- Enhanced application performance using **Load Balancing, Database Indexing, and Caching Strategies**.
- Implemented **secure coding practices** to mitigate vulnerabilities like SQL Injection & XSS.

PROJECTS

EduAI – Smart Grading & Feedback Assistant - [\[GitHub\]](#)

- Developed an **AI-powered platform** that automates grading and personalized feedback for educators, reducing evaluation time by **60%**.
- Integrated **NLP models** for context-aware feedback, ensuring detailed insights for students.
- Designed a **user-friendly dashboard** for seamless report generation and analytics.
- **Tech Stack:** React.js, TypeScript, OpenAI API, Supabase, Express.js, PostgreSQL.
-

WealthGenie – AI-Powered Financial Companion - [\[GitHub\]](#)

- Built a **GenAI-based financial assistant** to enhance financial literacy in India through gamification and interactive learning.
- Engineered cultural insights and social engagement features to tailor recommendations for diverse user groups.
- Designed a **dark-themed single-page MVP**, improving user experience and engagement.
- **Tech Stack:** React.js, TypeScript, OpenAI API, Firebase, Node.js, Express.js

Resume.io -[Github](#)

- Designed an **automated resume-building tool** generating **ATS-friendly** resumes.
- Reduced **resume generation time by 50%**, optimizing performance.
- **Tech Stack:** Java, Swing, iText.jar, MERN Stack (MongoDB, Express, React, Node.js) + Gemini AI

TaskSphere (A Cloud-Based Task Management System) - [Github](#)

- Developed a **real-time collaborative task management system** on **AWS**.
- Implemented **Spring Boot RESTful APIs**, ensuring seamless data updates.
- Integrated **role-based authentication**, improving system security by **40%**.
- **Tech Stack:** Java, Spring Boot, MySQL, AWS

NoteNest (A Notes Management System) - [GitHub](#)

- Built a **notes organization system** for students with **categorization & editing features**.
- Focused on **responsive UI & secure data storage** for an improved user experience.
- **Tech Stack:** MERN Stack (MongoDB, Express, React, Node.js)

ChatBot Assistant using LangChain & LLMs - [GitHub](#)

- Developed a **conversational AI chatbot** using **LangChain and GeminiAI**.
- Integrated **retrieval-augmented generation (RAG)** to provide real-time responses based on user queries.
- Designed **modular prompt engineering** techniques for better contextual understanding.
- **Tech Stack:** Python, LangChain, GeminiAI API, FastAPI

Automatic Blog Creation AI (LLAMA 2 & LLMs)

- Built an **AI-powered blog generation system** using **LLAMA 2 and LLM models** to create high-quality content.
- Integrated **customizable templates & SEO optimization**, making content adaptable for different niches.
- Implemented **automated summarization & topic analysis** for better user engagement.
- **Tech Stack:** Python, LLAMA 2, LangChain, FastAPI, OpenAI API

ACHIEVEMENTS & EXTRA-CURRICULAR ACTIVITIES

- **J.P. Morgan Virtual Experience (Aug 2024):** Developed a real-time data visualization tool improving data feed accuracy.
- **Code Cubicle Hackathon:** Led a team to build a distributed application, reducing response time by 40%.
- **Ethical Hacking & Cybersecurity Certification – University of Delhi.**
